

Mini Measuring Column

# MSM

# MSM

## Brief Description

The pneumatic electronic column MSM was designed as a compact and low-cost solution for manual measurements.

All settings, including program selection are made by means of the color touchscreen.

The MSM has a variety of interfaces available (RS232, USB, Profibus, Ethernet) for further processing of measuring values for data storage (storing the measured values in .txt or Stotz standard .dfq format). The device is modular in the fact that it is expandable to up to four pneumatic measuring channels (type: K, M1, P, X) of the same or even different types. In addition to these pneumatic channels, two optional inductive inputs can be utilized simultaneously.

- Pneumatic and Inductive LVDT
- Compact Design
- Color Touchscreen Display
- Very easy to use
- Maximum measurement stability and minimal air consumption by monitoring the air supply
- Stotz Standard Measuring Software SPC M
- Simple Statistical Analysis
- Data Exchange between MSM devices and parent networks via software for centralized quality management

Position	Description
1	Color Touchscreen Display
2	Modular Pneumatic Channels from 1 to 4

### Position Description

- |    |  |
|----|--|
| 1  | On/Off Switch  |
| 2  | Power Supply 24 Volt                                 |
| 3  | Digital Interface 8 x I/O Opto                       |
| 4  | Serial Interface RS 232                              |
| 5  | Port for external control box WT                     |
| 6  | LAN Interface  |
| 7  | USB Interface  |
| 8  | Compressed Air Supply                                |
| 9  | Optional external Power Supply 24VDC by Stotz DPW-PS |
| 10 | Optional Interface                                   |
| 11 | Optional Interface                                   |
| 12 | Optional Profibus Interface                          |
| 13 | Optional Inductive Input T1 and T2                   |

### DPW-PS Power Supply

## Technical Data MSM

### Basic Unit

External Power Supply	100 230 V AC 40 60 Hz 20 VA
Graphic Display	480 x 800
Measuring Programs	18
Connection for control box	1
Digital Input 24V 3mA Digital	8
Output 24V 80mA	8
Pneumatic Meas. Channels	1
Serial Interface RS232	available
USB Interface 2.0	available
Program editor	MSM/MRA
Real Time Clock	available
Incoming Air Supply	3 bar (+/-0.25 bar)
Protection	IP 52
Dimensions	123x 234 x 283 mm

### Modular Equipment

Pneumatic Meas. Channels	1 ... 4 modular
Inductive Probe LVDT	Up to 2 (Half bridge)
Measuring Programs	Up to 99 (Selection via touchscreen)
Datalogger	1
Program Software	Program designer SPC PD 3 Versions
Network Connectivity	1
Ethernet 10/100 MBit	1
Profibus Interface (SUBD9)	Slave
Analog Input +/- 10V (SUBD9)	Up to 2
Connection for Power Supply	1
DPW-PS	

### Optional Accessories

Control Box	WT-MSM
-------------	--------

Control Box WT-MSM3

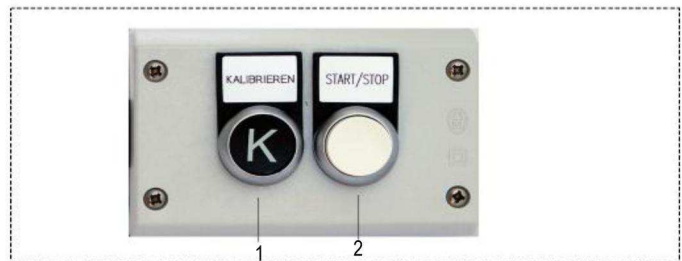

Position	Description
1	manual Calibration
2	optional
3	Program Start/Stop

Control Box WT-MSM2

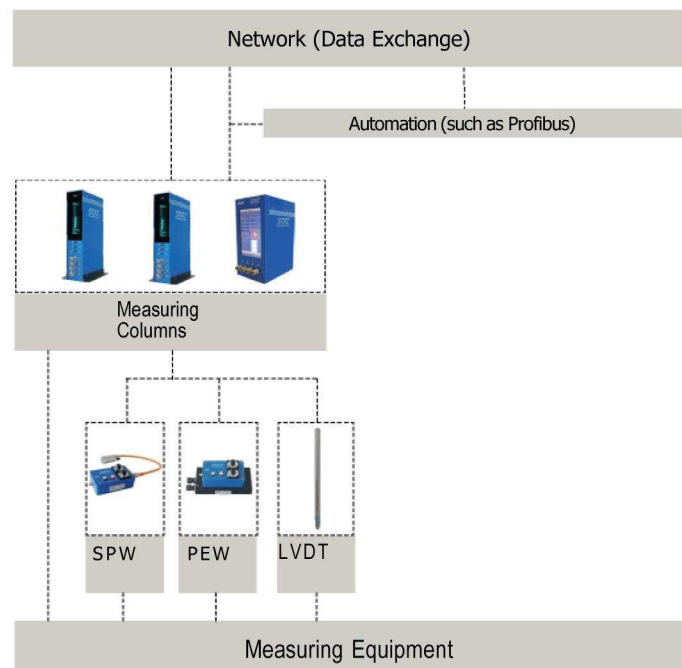

Control Box WT-MSM1

### Position Description

- 1 manual Calibration
- 2 Program Start/Stop
