Expect great measures

"ZOLLER is committed to the highest quality standards for true precision. It is our top priority that the products carrying our family name exceed your expectations and contribute to your success. In order to achieve this ZOLLER goes to great measures for you."

Alexander Zoller

About ZOLLER Inc.

In 1945, Alfred Zoller founded the company ZOLLER in Germany, which is today in its third generation. Since 1968 more than 28,000 presetting and measuring machines as well as tool measuring machines with worldwide unrivaled software solutions have been sold.

On March 1, 1997, ZOLLER Inc. was founded in Ann Arbor, Michigan. ZOLLER Inc.'s dedication to customer satisfaction is reflected in the company's fast and reliable customer service, as well as the superior quality and performance of its products.

Schedule a demonstration today!

ZOLLER's 3,200 square-foot technical centre in Ann Arbor features our complete product line on display. You are invited to schedule an individual product presentation. You can bring your own tools to measure them on the ZOLLER machines and to experience hands-on high performance tool management solutions.

The ZOLLER seal of quality guarantees quality and precision, reliability and cost-effectiveness. That's what ZOLLER stands for.

Benefit from ZOLLER's innovation, quality and customer service

SUPPORT

ZOLLER's service technicians assist you at a moment's notice when you need us. We stock all spare parts at ZOLLER's Michigan facility so we can quickly supply replacement parts if necessary. If you have any queries regarding your ZOLLER product our hotline staff will be pleased to assist you.

SERVICE

When you become a ZOLLER customer, we value your business and go to great lengths to exceed your expectations in every way. Excellent customer service and product support are our top priority at ZOLLER. We will install your ZOLLER equipment and train your operators so you will maximize the benefits of our equipment.

ZOLLER is in a position to provide local sales, application and service support for the North American and Mexican machine tool industry. With ZOLLER employees located directly in all major industrial zones across the country, we can assure reliable and fast support.

SALES

Know-how right where you need it

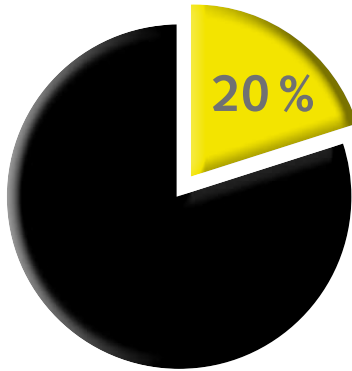

Our **ZOLLER service** quickly applies our knowledge and know-how where you need it. Specially trained ZOLLER service technicians are at your service worldwide.

Why should it be ZOLLER?

Always be one step ahead

Benefit from innovative solutions for greater efficiency in your manufacturing processes. An international network of subsidiaries and agents ensures the highest level of service quality with personal customer care.

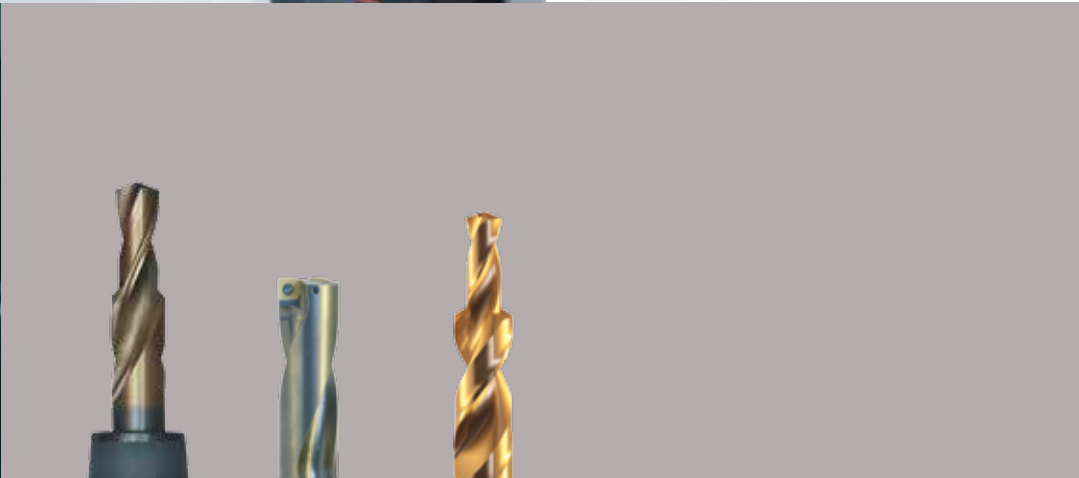

For maximum productivity and profit

Our machines feature the highest levels of precision, ergonomic operation, low maintenance requirements and user-friendly technology. ZOLLER measures tools easily, accurately and with guaranteed results.

Using **ZOLLER** equipment you will benefit from cutting-edge technology that helps you stay ahead of your competition and be successful in the long-term.

Tool manufacturers

Tool and mold making

Grinding and sharpening operations

Contract manufacturing

Manufacturing of turned parts

Feedback

"We saw immediate cost savings in the form of reduced machine time – after the installation of the ZOLLER, the total production time was reduced by more than 50%. ZOLLER has given us a new level of assurance with our tools and significantly reduced the machine time needed to produce them."
- Ron Migedt, Owner, Riverside Tool, IN

"With the ZOLLER tool presetter and measuring machine, we preset tools much quicker and more accurately. And we have eliminated most of the off-sets that we used to have." - Gustav Bonse, VP of Manufacturing, SureFire, CA

"We found a way through ZOLLER to help us produce accurate parts consistently, save machine time and improve machining productivity." - Eric Gale, Milling Group Leader, Xceldyne Technologies, NC

"Over the years, the system has reduced human error, reduced the plants overall scrap rate and improved the change-over time between jobs." - Darrin Colbart, Manager Machining Center Tooling, PHD Huntington, IN

"Our operators respect the machine very much. They realize what this machine has done for them as far hitting the mark on our type of tools." - Dale Kutchek, Group Leader/Preset, Mercury Marine, WI
