QUICKFIT
TOOL ORGANIZATION SYSTEM

SAVE TIME. STAY ORGANIZED.

WITH WILLIAMS QUICKFIT TOOLS IN FOAM

THE WILLIAMS® ADVANTAGE

- Two-tone foam to instantly identify missing tool
- One-finger access provides a pivoting lift for easy access
- Foam is laser marked for easy identification
- Foam inserts resist oils, solvents and fuels

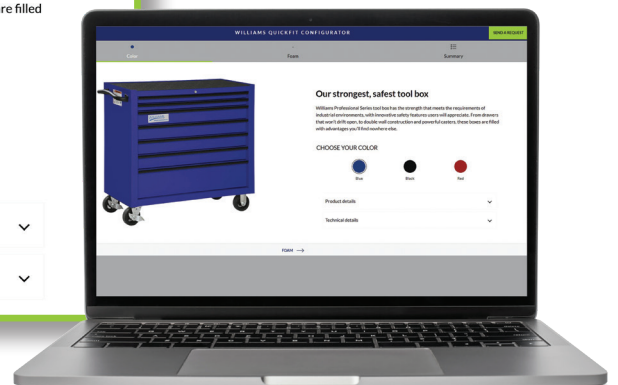

CREATE YOUR IDEAL WORKSPACE

configurator.williams-industrial.com

1 SELECT THE COLOR OF YOUR 40" ROLL CAB

The screenshot shows the 'Color' tab of the configurator. On the left is a blue 40" roll cab. On the right, the text reads: 'Our strongest, safest tool box. Williams Professional Series tool box has the strength that meets the requirements of industrial environments, with innovative safety features users will appreciate. From drawers that won't drift open, to double wall construction and powerful casters, these boxes are filled with advantages you'll find nowhere else.' Below this is a 'CHOOSE YOUR COLOR' section with three options: Blue (selected), Black, and Red. At the bottom, there are dropdown menus for 'Product details' and 'Technical details'.

STRONG.

The Williams® QuickFit System includes tool sets in foam that are specifically designed for industrial applications.

VALUED.

The Williams® QuickFit System keeps your tools organized so you can be more productive and get more done.
